

We are **Process & IT Team**.
We work on changing the nature of CEMEX through digitalization.
We are the team with global presence and impact.

Are you brave enough to apply?

Why CEMEX?

This is a great time to be at CEMEX **as we are well-positioned to grow and succeed**. We are a dynamic organization that provides great development opportunities for employees because we recognize that **our people are our best advantage**.

Due to the constant changing markets, we develop innovative business processes that can improve our commercial and operational experiences using the latest technologies. This is achieved by our **Process & IT team** that is **constantly evolving, researching, designing, implementing and executing new technologies and global processes** to streamline operations in CEMEX.

We are passionate, energetic people who **love challenges and learning**. Our team is integrated from a **diversity of backgrounds** that allow us to be **creative in solutions**. We have the ability to work and coordinate projects as a chain, and every link is very important **to create value** for the business and our customers.

At CEMEX, we are not just building the future, we **are building a better future**.

What is in it for YOU?

- Being part of the biggest IT project in the history of the company and chance to contribute to building of our new future
- Modern and design work space in Prague
- Responsibilities and tasks with global impact in multicultural environment
- Designing, developing and suggesting solutions – no maintenance or ticketing
- A broad range of opportunities for personal development
- Business notebook and mobile phone also for private use within the CZ
- Other benefits: coffee, tea & soft drinks, fresh fruit & vegetable every day, fully covered meal vouchers, 5 weeks of holidays, regular Massages at work, Pension contribution, FlexiPass, Multisport Card, etc.)
