- Semi-Automated and automated deployment of applications to cloud and no-cloud environments
- Ensure healthiness/health-state of productive and no-productive environment and related applications using Dynatrace, Tivoli, Kibana
- Implement job automation, writing sql scripts and using UC4
- Request, Incident, Change and Problem management
- Creating reports through database (oracle)

We prefer candidates with:

- Flexible mindset eager to learn new things
- Experience in scripting languages (Phyton, Shell)
- Very good analytical and problem solving skills
- An independent, stress resistant, responsible attitude
- Good knowledge of Linux or Unix based OS
- Excellent knowledge of sql querying
- Excellent knowledge of SQL and/or Oracle database
- Very Good communication skills in English is a must (German nice to have)

It would be beneficial to have:

- Database administration knowledge
- Experience in analyzing logs
- Jira, Tfs, Confluence or similar tools

- Knowledge of OpenShift/ Kubernetes and Kibana
- Experience working in Agile environment

We offer:

- A friendly, inclusive and open-minded company culture
- A competitive salary with a very decent annual bonus system
- A sophisticated program of further professional training and personal growth
- Home office, flexible working hours and an enjoyable relax corner where you can recharge your batteries
- Attractive fringe benefits incl. up to 30 days of vacation, paid sick leaves and sponsored public transport
- Modern offices in Karlovo náměstí, amazing multicultural colleagues and so much more!
