Dynamics CRM Developer (junior/mid level)

In Commerzbank Digital Technology Centre Prague, we are transforming a traditional bank into a digital agile enterprise! We provide a wide range of various IT solutions, .Net and Java development, services in the area of application operation and infrastructure.

We are looking for thinkers with unconventional ideas and in return, we offer the freedom to create own job with own vision, wide range of benefits including home office. Sounds interesting?

Shape the future of banking with us!

Note: Dear candidates, we are currently doing interviews via e-tools (audio/video conferencing)

Are you a proactive team player, who is passionate about communication and software development? Then shape the future of banking with us. You can participate in software design, development, and all technical aspects of a project's lifecycle, including end-2-end responsibility. There is close cooperation with other developers and business colleagues on a daily basis.

You would work on a live, bank-wide CRM system from Microsoft. In addition, you would also have the opportunity to delve into the integration layer based on full enterprise WebMethods platform from Software AG, where you can utilize .NET, Java, Messaging, data connectors and other skills/technologies from your stack. We expect you to learn and adopt new technologies quickly and will provide you with necessary onboarding courses.

You will be responsible for:

- Design & development of business logic, customizations, .NET plugins, Javascript and UI of Microsoft Dynamics CRM
- Design & creation of testing suite in specialized software
- Overall architecture & implementation on integration layer in WebMethods platform to connect existing solutions and develop new possibilities

- Involvement in early stages of analysis & design of the solutions. Communicating with a distributed team of professionals

We are looking for candidates with these skills:

Required:

- Experience in C#/.NET or Java programming
- Ability to pick up new skills and adopt new technologies
- Knowledge of current frontend basics (HTML5, CSS, JS)
- Experience in SQL (preferably MS SQL)
- Analytical skills
- Proficient communication in English (both verbal and written)

Optional:

- Former knowledge of Dynamics CRM platform or WebMethods
- Typescript
- React
- Experience with modern graphical programming tools & frameworks

We offer:

- Friendly multicultural environment within a distributed, international team
- Competitive salary
- Possibility of professional training and growth
- Annual bonus system
- Attractive benefits including up to 30 days of vacation, paid sick leaves and sponsored public transport
- Flexible working hours
- Modern offices in Prague City Center
